

Buy the books,
share the adventure,
help build a school.

Buy the books for your children, give a set as a gift or donate them to a deserving child through our Gift-Giving program. In our ongoing effort to promote literacy, we encourage you to **share the adventure** with these insightful stories of the adventures of a boy and his little sister. These books teach children about problem-solving and help them gain a greater understanding of the skills needed to deal with the many challenges and obstacles that they will encounter on their journey through life. In the process, you will **help build a school** in Africa for children in need, as 25% of the price of each book sold will be donated to **Joining Hearts and Hands, Ltd.**

The goal of **Joining Hearts and Hands** is to build meaningful relationships with educational communities in Western Kenya through projects, initiatives, and activities which promote dignity, opportunity, and self-sustainability. Your purchase today will help provide funds to build a school for HIV/AIDS orphans, a community center, and a medical clinic to serve the needs of the school children and their families.

In an age of materialism, children can learn through these books how to appreciate and be grateful for some of the simpler things in life — *like the gift of each other*. We also want to help raise the awareness that there are many children in the world today that have been overlooked. Through this book challenge, they can also learn how love and compassion are working to help some of these children, who will one day soon have a place to go to school and learn — ***because every child deserves the opportunity for an education!***
